Calgary, AB T2P 0R4

Re: **Facility Licence Number: F4285**
Decision 2010-036, Section: 5.4, Paragraph 108

Dear Ms. MacPhee:

Taylor Processing Inc. (Taylor) is required under ERCB Decision 2010-036 to:

Ensure that ongoing preference is on the processing of raw gas over NGTL gas by requiring Taylor, or its successor in ownership of the Harmattan plant, to file annual reports with the ERCB on the volume of raw gas processed, the volume of raw gas offered or nominated, and the disposition of raw gas nominations. The report would also include any ongoing efforts to consolidate processing operations in the Harmattan catchment area. Additionally, the Board would require Taylor to demonstrate that the current financial incentive to process raw gas over NGTL gas continues to exist.

Pursuant to the first requirement, attached is a report which outlines the daily inlet values at the Harmattan plant for 2015.

In regards to the second requirement, Taylor continues to have ongoing discussions with producers about bringing more raw gas into the Harmattan plant. As a result, several producers are now bringing additional volumes into the plant. Additionally, a producer-owned facility was tied into the Harmattan plant this year.

Lastly, Taylor confirms that the financial incentive to process raw gas over NGTL gas continues to exist at the Harmattan plant. Capital recovery fees for raw gas can range from \$0.35 to \$1.08/mcf whereas capital recovery fees from Co-stream are approximately \$0.53/mcf. After normalizing for turnaround days and outages, the capital recovery fees from Co-stream are approximately \$0.39/mcf.

Should you have any questions or require any additional information regarding this information, please do not hesitate to contact me at (587)955-4528.

Regards,

TAYLOR PROCESSING INC.

Keith Blundell
