Energy Resources Conservation Board  
Attention: Mirtyll Alboiu  
Suite 1000, 250-5th Street SW  
Calgary, AB T2P 0R4

Re: **Facility Licence Number: F4285**  
**Decision 2010-036, Section: 5.4, Paragraph 108**

Dear Ms. Alboiu:

Taylor Processing Inc. (Taylor) is required under ERCB Decision 2010-036 to:

Ensure that ongoing preference is on the processing of raw gas over NGTL gas by requiring Taylor, or its successor in ownership of the Harmattan plant, to file annual reports with the ERCB on the volume of raw gas processed, the volume of raw gas offered or nominated, and the disposition of raw gas nominations. The report would also include any ongoing efforts to consolidate processing operations in the Harmattan catchment area. Additionally, the Board would require Taylor to demonstrate that the current financial incentive to process raw gas over NGTL gas continues to exist.

Pursuant to the first requirement, we have attached a report which outlines the daily inlet values at the Harmattan plant.

In response to the second requirement, Taylor has been in discussions with producers in the Lochend area south of Harmattan regarding processing of solution gas from the Cardium oil development in the area. So far, agreement has not been reached with area producers, however, discussions are continuing.

Lastly, Taylor confirms that the financial incentive to process raw gas over NGTL gas continues to exist at the Harmattan plant. Taylor has a financial incentive which ranges from \$0.04 to \$0.40/mcf to process raw gas versus Co-Stream gas. Capital recovery fees for raw gas can range from \$0.37 to \$0.73/mcf whereas capital recovery fees from Co-Stream are approximately \$0.33/mcf.

Should you have any questions or require any additional information regarding this information, please do not hesitate to contact me at (403) 691-7594.

Regards,  
**TAYLOR PROCESSING INC.**

Nicole Axelson Plumb  
Regulatory Analyst
