1	Review current convention for extraction of natural gas liquids (NGL) off the NOVA Gas Transmission Ltd. (NGTL) system	The Board is concerned about the inequities, as presented at this hearing, in the current convention for extraction of NGL off the NGTL system. The Board requests that parties work with NGTL to initiate a review of the current convention for extraction of NGL off the NGTL system by April 1, 2004.	P. 20, S. 8.3, 3 rd paragraph		Completed July 24, 2006. The NGL Extraction Convention Task Force submitted a report on this matter dated September 2005. This was presented to the Board on March 27, 2006. the board accepted this as fulfillment of this condition in a letter dated July 24, 2006.
		The Board expects this matter to be resolved through an industry process and the Board be advised by October 31, 2004. This industry process should be inclusive of affected parties, providing all constituents with a reasonable opportunity to advance their positions and concerns. If this issue has not been addressed through NGTL's Tolls Tariffs and	P. 24, S. 10, 7th paragraph		
		Policies (TTP) committee or otherwise, the Board may direct NGTL to consider this matter in its next tariff application.
