Dear Rachel,

**Re: Pembina Pipeline Corporation  
Fox Creek to Namao Pipeline Expansion Project  
AER Decision 2016 ABAER 004 Condition #2  
Additional Block Valve at Paddle River (13-03-57-08 W5M)**

---

Pembina Pipeline Corporation ("Pembina") is providing the attached valve spacing map in fulfilment of Condition #2 of AER Decision 2016 ABAER 004 for the Fox Creek to Namao Expansion Project ("the Project").

Condition #2 states:

*Pembina must install an additional block valve on each pipeline at a location chosen with the goal of further reducing potential release volumes into the Paddle River.*

Pembina confirms that this condition has been met, and this is verified by the valve spacing diagram attached to this letter. The additional block valve is identified on the attached valve spacing diagram as Block Valve Site #8. Land acquisition has been completed along with confirmation of non-objection.

If you have any questions or concerns about the attached information please contact the below at (403) 231-3157 or [pmiles@pembina.com](mailto:pmiles@pembina.com)

Sincerely,

Peter Miles, Regulatory Supervisor  
**Pembina Pipeline Corporation**
